2

Docket No. CIB-T104CX Serial No. 09/680,858

In the Claims

- 1-23 (previously cancelled).
- 24 (original). A plant microspore comprising a mixed duplex oligonucleotide.
- 25-27 (previously cancelled).
- 28 (previously added). The plant microspore composition of Claim 24 wherein the plant is a member of the family Brassicaceae.
- 29 (currently amended). The plant microspore composition of Claim 28 wherein the plant microspore is a *Brassica napus*, *Brassica rapa*, *Brassica olercea* or a *Brassica Juneea Brassica juncea* microspore.
- 30 (previously amended). A mutated plant microspore which comprises a genomic mutation wherein the genomic mutation was accomplished by introducing a mixed duplex_oligonucleotide into the plant microspore.
- 31 (previously added). The mutated plant microspore of Claim 30 wherein the microspore is from a plant of the family Brassicacaea.
- 32 (currently amended). The mutated plant microspore of Claim 31 wherein the plant microspore is a *Brassica napus*, *Brassica rapa*, *Brassica oleracea* and or *Brassica Brassica juncea* microspore.
- 33 (new). An isolated plant microspore which comprises a genomic mutation wherein the genomic mutation was accomplished by introducing a mixed duplex oligonucleotide into the plant microspore.

3

Docket No. CIB-T104CX Serial No. 09/680,858

34 (new). The isolated plant microspore of Claim 33 wherein the microspore is from a plant of the family Brassicacaea.

35 (new): The isolated plant microspore of Claim 34 wherein the plant microspore is a Brassica napus, Brassica rapa, Brassica oleracea or a Brassica juncea microspore.

36 (new). The isolated plant microspore of Claim 33 wherein the microspore is regenerated into a plant that contains the genomic mutation.

37 (new). A plant regenerated from an isolated microspore of Claim 33 and progeny thereof.

38 (new). A seed which is derived from the regenerated plant of Claim 37.
